## Available now!

*Curly Like Me*, the off-the-grid, do-it yourself owner's manual for tightly curly hair, is ready for ordering. Grab your copy today!

Every purchase made from this site (through Amazon) helps support it — and it doesn't cost you anything extra.

In the ingredient descriptions: **Good** means that I like to see this in a product's list of ingredients. **Okay** means this product appears safe for a curly person like me to use. **Caution** means that this ingredient may not be good in some hair care products, or for some people. **Avoid** means this ingredient may hurt your hair. If you see this ingredient in a hair product, it's best to put it down and walk away.

### Yellow 5 (aka CI 19140)

**Okay**

Cosmetic colorant [Winter Pg 549].

Source(s): Winter

### Yellow 6 (aka CI 15985)

**Caution**

Coloring ingredient often found in colognes and hair products. Since this is derived from Coal Tar, there has been some controversy about products with this in them, depending on the country. For the countries that do feel there is a problem with Coal Tar derived ingredients, so long as they are rinsed off, they are considered fine [Winter (7th ed) pg 553 & 159].

*If a product has Yellow 6 in it, from my research, it's probably okay to use in a product you rinse off (unless you have sensitive skin, or you are using it on a child—then I'd say avoid it completely). However, you probably should not leave any conditioner in your hair that has Yellow 6 in it. —T*

Source(s): Winter

### Yellow 10 (aka CI 47005)

**Okay**

Yellow food coloring found in products for teeth, bath products, conditioners, and shampoos [Winter (7th ed.) pg 553].

Source(s): Winter

### Ylang ylang (aka Cananga odorata; Ylang ylang flower extract)

**Caution**

Fragrant oil often used in perfumes, and as a flavoring in food or drinks. A light yellow oil made from flowers that grow in the Philippines. May cause skin irritation [Winter (7th edition) pg 553].

Source(s): Winter

### Yucca

**Okay**

Can clean slightly. May have anti-inflammatory properties. Pg 270-271.

See also: Saponin

Source(s): Begoun
